Professional Summary

Dedicated and motivated Computer Science graduate from Egerton University with practical experience in software development, web application development, and database management. Skilled in frontend and backend development technologies including JavaScript, Node.js, Express.js, Flutter, Java, MySQL, and Firebase. Passionate about developing efficient and user-friendly systems that solve real-world challenges. Strong problem-solving skills, adaptability, and ability to work collaboratively in team environments.

Technical Skills

- **Programming Languages:** Java, JavaScript, HTML, CSS
- **Frameworks & Libraries:** Flutter, Node.js, Express.js
- **Database Technologies:** MySQL, Firebase
- **Development Tools:** GitHub, Visual Studio Code, android studio, git
- **Other Skills:** Responsive Web Design, API Integration, Mobile Application Development

Projects

Chama Management System

- Developed a mobile-based Chama Management System using Flutter, Node.js, and MySQL to help groups manage contributions, member records, savings, and financial transactions.

- Implemented user authentication, contribution tracking, and financial management features.
- Designed a responsive and user-friendly interface to improve user experience.
- Integrated backend APIs and database functionality for efficient data storage and retrieval.

Lost and Found Management System

- Built a Java-based Lost and Found Management System to assist users in reporting and tracking lost items.
- Implemented item registration, search functionality, and reporting features.
- Focused on improving organization and efficiency in handling lost property cases.

Professional Experience

Industrial Attachment – Regina Tech Limited, Nakuru

- Participated in software development and technical support activities during the attachment period.
- Worked with technical teams to troubleshoot systems and improve operational efficiency.
- Gained practical experience in system maintenance, teamwork, and professional communication.

Education

Bachelor of Science in Computer Science

Egerton University

Expected Graduation: November 2026

Professional Strengths

- Strong analytical and problem-solving abilities
- Ability to work effectively in collaborative environments
- Fast learner with adaptability to new technologies
- Good communication and interpersonal skills
- Passionate about software and system development

Career Objective

To secure a challenging opportunity in software development or IT where I can apply my technical knowledge, continue learning emerging technologies, and contribute to developing innovative digital solutions.
